

TRAINING & EDUCATION

40 Hour Fundamentals of Fire Investigation

This 40-hour course is designed to provide the new fire investigator with the prerequisite knowledge necessary to properly determine the origin and cause of a fire and to refresh the experienced fire investigator with his/her current knowledge base as it relates to the scientific investigation of a fire scene. The course is designed to be taught in a week-long period but can be spread out over time depending on the needs of the agency or department. This course provides the basis for the IAAI Fire Investigation Technician certification.

CFITrainer.Net® Module Prerequisites:

- The Scientific Method for Fire and Explosion Investigation
- Understanding Fire Through the Candle Experiments
- Fire Investigator Scene Safety

Subaru of Indiana - Training Facility
